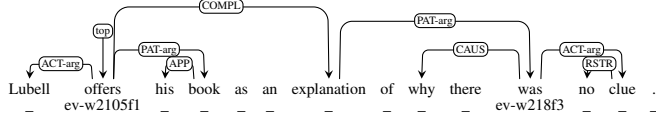

Figure 10: A syntactic tree for the sentence "We are all aware of the continuing struggle with its limited and precarious success, toward conservatism." The tree shows the hierarchical structure of the sentence, with the root node S branching into NP (We) and VP (are all aware of the continuing struggle with its limited and precarious success, toward conservatism). The VP branches into V (are) and PP (all aware of the continuing struggle with its limited and precarious success, toward conservatism). The PP branches into P (all aware of) and NP (the continuing struggle with its limited and precarious success, toward conservatism). The NP branches into the article the and the NP (the continuing struggle with its limited and precarious success, toward conservatism). The NP branches into the adjective continuing and the NP (the struggle with its limited and precarious success, toward conservatism). The NP branches into the noun struggle and the PP (with its limited and precarious success, toward conservatism). The PP branches into P (with) and NP (its limited and precarious success, toward conservatism). The NP branches into the pronoun its and the NP (limited and precarious success, toward conservatism). The NP branches into the adjective limited and the NP (and precarious success, toward conservatism). The NP branches into the conjunction and and the NP (precarious success, toward conservatism). The NP branches into the adjective precarious and the NP (success, toward conservatism). The NP branches into the noun success and the PP (toward conservatism). The PP branches into P (toward) and NP (conservatism).

Figure 10 shows the dependency structures for the three sentences. The first sentence is a simple transitive sentence. The second sentence is a more complex sentence with a relative clause. The third sentence is a complex sentence with a relative clause and a main clause. The dependency structures are shown as directed graphs with nodes representing words and edges representing dependencies. The edges are labeled with dependency types such as *CONJ\_member*, *DIRJ*, *RSTR*, *ACT\_arg*, *PAT\_arg*, *CONJ\_member*, *CONJ\_member*, and *CONJ\_member*.

[illegible]

For it was neglected ev-w2065f1 not to say ev-w2833f1 nascent when the struggle began ev-w234f3

But I ev-w218f7 u nobody not here to define ev-w845f1 conservatism

Figure 1 illustrates a dependency parse tree for the sentence: "One of the obvious conclusions we can make on the basis of the last election, I suppose, is that we, the majority, were dissatisfied with Eisenhower conservatism." The tree structure shows how words are grouped into phrases and how they relate to each other. Key nodes and their children include:

- NP** (Noun Phrase) at the top, branching into **DT** (Determiner) "One", **PP** (Prepositional Phrase) "of the obvious conclusions", **PRP** (Personal Pronoun) "we", **VP** (Verb Phrase) "can make", **PP** (Prepositional Phrase) "on the basis of the last election", **PRP** (Personal Pronoun) "I", **VP** (Verb Phrase) "suppose", **NP** (Noun Phrase) "is that we, the majority, were dissatisfied with Eisenhower conservatism".
- PP** (Prepositional Phrase) "of the obvious conclusions" branches into **PP** (Prepositional Phrase) "of the" and **NP** (Noun Phrase) "obvious conclusions".
- VP** (Verb Phrase) "can make" branches into **PRP** (Personal Pronoun) "we" and **VP** (Verb Phrase) "can make".
- PP** (Prepositional Phrase) "on the basis of the last election" branches into **PP** (Prepositional Phrase) "on the basis of" and **NP** (Noun Phrase) "the last election".
- NP** (Noun Phrase) "I suppose" branches into **PRP** (Personal Pronoun) "I" and **VP** (Verb Phrase) "suppose".
- NP** (Noun Phrase) "is that we, the majority, were dissatisfied with Eisenhower conservatism" branches into **VP** (Verb Phrase) "is" and **NP** (Noun Phrase) "that we, the majority, were dissatisfied with Eisenhower conservatism".
- NP** (Noun Phrase) "that we, the majority, were dissatisfied with Eisenhower conservatism" branches into **PRP** (Personal Pronoun) "that", **PRP** (Personal Pronoun) "we", **PP** (Prepositional Phrase) "the majority", **VP** (Verb Phrase) "were dissatisfied with", and **NP** (Noun Phrase) "Eisenhower conservatism".

The tree structure shows how words are grouped into phrases and how they relate to each other. Key nodes and their children include:

- NP** (Noun Phrase) at the top, branching into **DT** (Determiner) "One", **PP** (Prepositional Phrase) "of the obvious conclusions", **PRP** (Personal Pronoun) "we", **VP** (Verb Phrase) "can make", **PP** (Prepositional Phrase) "on the basis of the last election", **PRP** (Personal Pronoun) "I", **VP** (Verb Phrase) "suppose", **NP** (Noun Phrase) "is that we, the majority, were dissatisfied with Eisenhower conservatism".
- PP** (Prepositional Phrase) "of the obvious conclusions" branches into **PP** (Prepositional Phrase) "of the" and **NP** (Noun Phrase) "obvious conclusions".
- VP** (Verb Phrase) "can make" branches into **PRP** (Personal Pronoun) "we" and **VP** (Verb Phrase) "can make".
- PP** (Prepositional Phrase) "on the basis of the last election" branches into **PP** (Prepositional Phrase) "on the basis of" and **NP** (Noun Phrase) "the last election".
- NP** (Noun Phrase) "I suppose" branches into **PRP** (Personal Pronoun) "I" and **VP** (Verb Phrase) "suppose".
- NP** (Noun Phrase) "is that we, the majority, were dissatisfied with Eisenhower conservatism" branches into **VP** (Verb Phrase) "is" and **NP** (Noun Phrase) "that we, the majority, were dissatisfied with Eisenhower conservatism".
- NP** (Noun Phrase) "that we, the majority, were dissatisfied with Eisenhower conservatism" branches into **PRP** (Personal Pronoun) "that", **PRP** (Personal Pronoun) "we", **PP** (Prepositional Phrase) "the majority", **VP** (Verb Phrase) "were dissatisfied with", and **NP** (Noun Phrase) "Eisenhower conservatism".

Though, to be sure, we gave Kennedy no very positive approval in the margin of his preferment.

Figure 1 illustrates the structure of the sentence "But before I try to diagnose it I would offer other evidence" using the proposed framework. The sentence is segmented into words: "But", "before", "I", "try", "to", "diagnose", "it", "I", "would", "offer", "ev-w2105fl", "other", "evidence". The words are grouped into phrases: "But before", "I try", "to diagnose it", "I would", "offer ev-w2105fl", "other evidence". The phrases are further grouped into clauses: "But before", "I try to diagnose it", "I would offer ev-w2105fl", "other evidence". The clauses are further grouped into sentences: "But before", "I try to diagnose it", "I would offer ev-w2105fl", "other evidence". The words are also grouped into phrases: "But before", "I try", "to diagnose it", "I would", "offer ev-w2105fl", "other evidence". The phrases are further grouped into clauses: "But before", "I try to diagnose it", "I would offer ev-w2105fl", "other evidence". The clauses are further grouped into sentences: "But before", "I try to diagnose it", "I would offer ev-w2105fl", "other evidence".

Figure 10. A syntactic tree for the sentence in (9). The tree is based on the analysis in (10) and (11) in the text. The tree is a partial tree, showing only the parts of the tree that are relevant to the discussion. The tree is a partial tree because it does not show the full structure of the sentence, but only the parts that are relevant to the discussion. The tree is a partial tree because it does not show the full structure of the sentence, but only the parts that are relevant to the discussion.

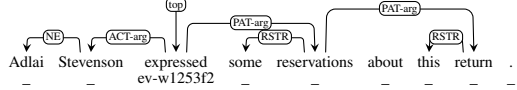

The earlier of them was an unofficial enterprise, sponsored by Life magazine, under the title of The National Purpose.

What I want to point out here is ev-w2318f2 that all of them are ev-w218f2 ex-liberals, or modified liberals, with perhaps one exception.

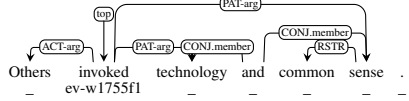

[illegible]

Figure 10: A parse tree for the sentence "Its refrain was : " let us return to the individualistic democracy of our forefathers for our salvation " .". The tree shows the hierarchical structure of the sentence, with the root node **S** branching into **NP** and **VP**. The **NP** branches into **APP** and **PAT**, which correspond to "Its" and "refrain" respectively. The **VP** branches into **VP** and **VP**, which correspond to "was" and ":" respectively. The second **VP** branches into **VP** and **VP**, which correspond to "let us" and "return" respectively. The third **VP** branches into **PP** and **VP**, which correspond to "to the" and "individualistic" respectively. The fourth **VP** branches into **VP** and **VP**, which correspond to "democracy" and "of" respectively. The fifth **VP** branches into **VP** and **VP**, which correspond to "our" and "forefathers" respectively. The sixth **VP** branches into **VP** and **VP**, which correspond to "for" and "our" respectively. The seventh **VP** branches into **VP** and **VP**, which correspond to "salvation" and "." respectively.
