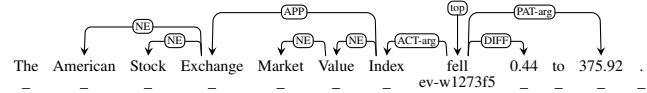

Diagram illustrating the structure of the input sentence: "Volume totaled 8,930,000 shares." The diagram shows the sentence split into tokens: "Volume", "totaled", "8,930,000", and "shares". Above the tokens, the parse tree structure is shown. The root node is "top", which branches into "ACT-arg" (above "Volume") and "EXT-arg" (above "8,930,000"). "EXT-arg" further branches into "RSTR" (above "shares") and another branch (above "totaled").

The partnership - - - which had - - - solicited - - - takeover offers - - - ev-w3064f1 - - - said - - - ev-w2833f1 - - - failed - - - ev-w1270f2 - - - to receive - - - ev-w2542f1 - - - any adequate bids - - - for all - - - of its operations - - - but is reviewing offers for individual properties - - - ev-w2745f1
