(coord ARG1)

(verb ARG1) (verb ARG2) (prep ARG1) (verb ARG2) (conj) (coord ARG1) (verb ARG2) (coord ARG2) (verb ARG2) (coord ARG2) (get ARG1)

I used to wear hats in Russia , but I had to make them and my dresses .

[21367022]

On the hat side I was n't getting what I wanted . "

Diagram illustrating the syntactic structure of the sentence "On the hat side I was n't getting what I wanted . " using the proposed framework. The diagram shows the hierarchical organization of the sentence into arguments (ARG1, ARG2) and their corresponding grammatical functions (e.g., *reep*, *verb*, *aux*, *conj*, *prep*, *punct*). The structure is as follows:

- reep ARG1** (top level) branches into:
 - reep ARG2** (middle level) branches into:
 - det ARG2** (bottom level) branches into: *On*
 - noun ARG** (bottom level) branches into: *the*
 - aux ARG1** (bottom level) branches into: *hat*
 - verb ARG1** (middle level) branches into:
 - aux ARG2** (bottom level) branches into: *side*
 - conj ARG1** (bottom level) branches into: *I*
 - verb ARG1** (middle level) branches into:
 - aux ARG2** (bottom level) branches into: *was*
 - conj ARG1** (bottom level) branches into: *n't*
 - prep** (middle level) branches into:
 - adj ARG** (bottom level) branches into: *getting*
 - verb ARG2** (bottom level) branches into: *what*
 - punct ARG1** (middle level) branches into:
 - verb ARG2** (bottom level) branches into: *I*
 - verb ARG2** (bottom level) branches into: *wanted*
- punct** (bottom level) branches into: *.*
- punct** (bottom level) branches into: *"*

Now 48 years old , Ms. Volokh has definite ideas about what she wants .

The diagram illustrates the syntactic tree for the sentence "Now 48 years old , Ms. Volokh has definite ideas about what she wants .". The root node is S, which branches into NP_{SUBJ} and VP. NP_{SUBJ} branches into adj ARG1 (Now) and noun ARG1 (Ms.). VP branches into V (has) and NP_{OBJ}. NP_{OBJ} branches into noun A (definite), verb ARG1 (ideas), and PP. PP branches into prep ARG1 (about) and NP_{PP}. NP_{PP} branches into pronoun ARG2 (what) and verb ARG2 (she). Verb ARG2 branches into verb ARG1 (wants).

[21367024]

At Moveline, she wants specific paragraphing, specific tone, a specific attitude - bright and bold and tongue-in-cheek. "

[1367025]

In restaurants (in this case , the Russian Samovar , a New York restaurant operated by and for Soviet emigres) , she did n't want the chirpy , folksish music bouncing through the room .

[21.367027]

That done, Ms. Volokh spoke with rampant eloquence about the many attributes she feels she was born with: an understanding of food, business, Russian culture, human nature, and parties.

Figure 1 illustrates a syntactic tree for the sentence "If you are born to give parties, you give parties." The tree structure is as follows:

- The root node is **root**, which branches into **conj ARG1** and **verb ARG2**.
- The **conj ARG1** node branches into **conj ARG2** and **verb ARG3**.
- The **verb ARG2** node branches into **conj ARG3** and **verb ARG4**.
- The **conj ARG2** node branches into **conj ARG1** and **verb ARG2**.
- The **conj ARG3** node branches into **conj ARG1** and **verb ARG2**.
- The **verb ARG4** node branches into **conj ARG1** and **verb ARG2**.

The sentence is represented as: "If you are born to give parties, you give parties."

[21367030]

Even in Russia we managed to give parties .

— — — — —

In Los Angeles , in our lean years , we gave parties . "

[21367032]

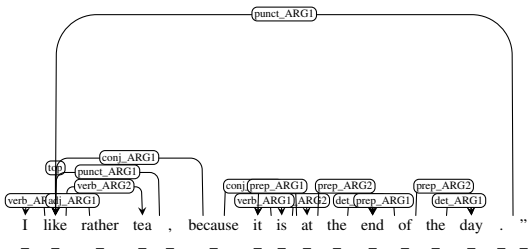

As publisher of a magazine devoted to movies as guideposts for fashion and other fantasies, Ms. Volokh sees her party-giving as an important part of business.
