He said Chrysler " is no longer sure " of its forecast for industry car and truck sales of 14.2 million in the 1990 model year .

[20818039]

Consumers , he said , are balking at higher prices on 1990 cars , especially after seeing the incentive-reduced prices on 1989 models .

[20818040]

In the nine months , net was \$ 1.02 billion , or \$ 4.38 a share , including the gain from the Mitsubishi stock sale , compared with \$ 617 million , or \$ 2.77 a share , after a charge of \$ 93 million , or 42 cents a share , for plant closings in the 1988 period .

[20818041]

Sales rose 8.4 % to \$ 27.95 billion from \$ 25.78 billion .

[20818042]

Heavy losses in North American auto operations sent GM 's net tumbling to \$ 516.9 million from a record \$ 859.2 million .

[20818043]

Detroit-based GM does n't issue separate quarterly earnings for the North American automotive business .

[20818044]

But analysts estimated that GM had a loss of as much as \$ 300 million on domestic vehicle operations .

[20818046]

But GM 's results also illustrate the increasing diversity of its operations .

[20818047]

In one breakdown , GM attributed half of its net to its two big technology units , Electronic Data Systems Corp. and GM Hughes Electronics Corp .

[20818048]

Meanwhile , GM said overseas auto operations are on track to exceed last year 's record full-year net of \$ 2.7 billion .

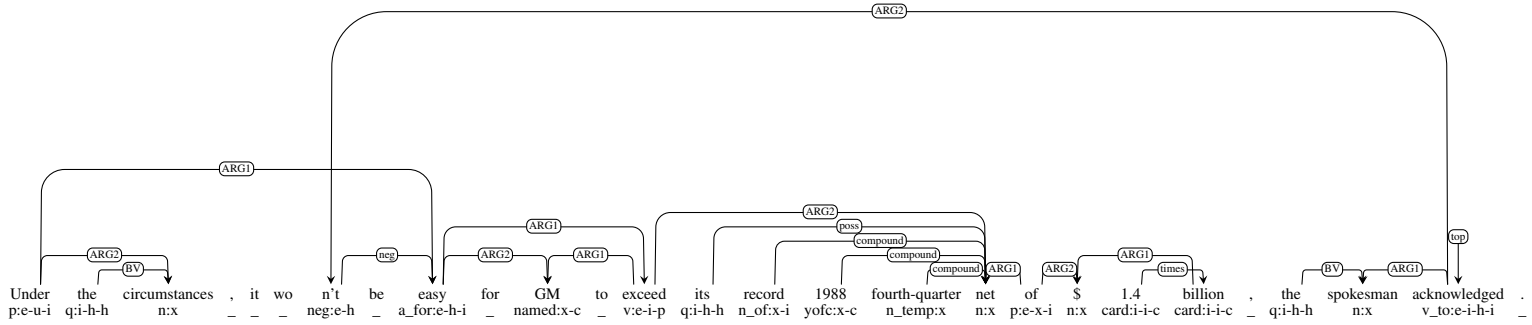

[20818049]

The diversified operations helped GM build its cash reserves , exclusive of its financial subsidiary , to \$ 5.5 billion as of Sept. 30 , a 22 % increase from a year earlier .

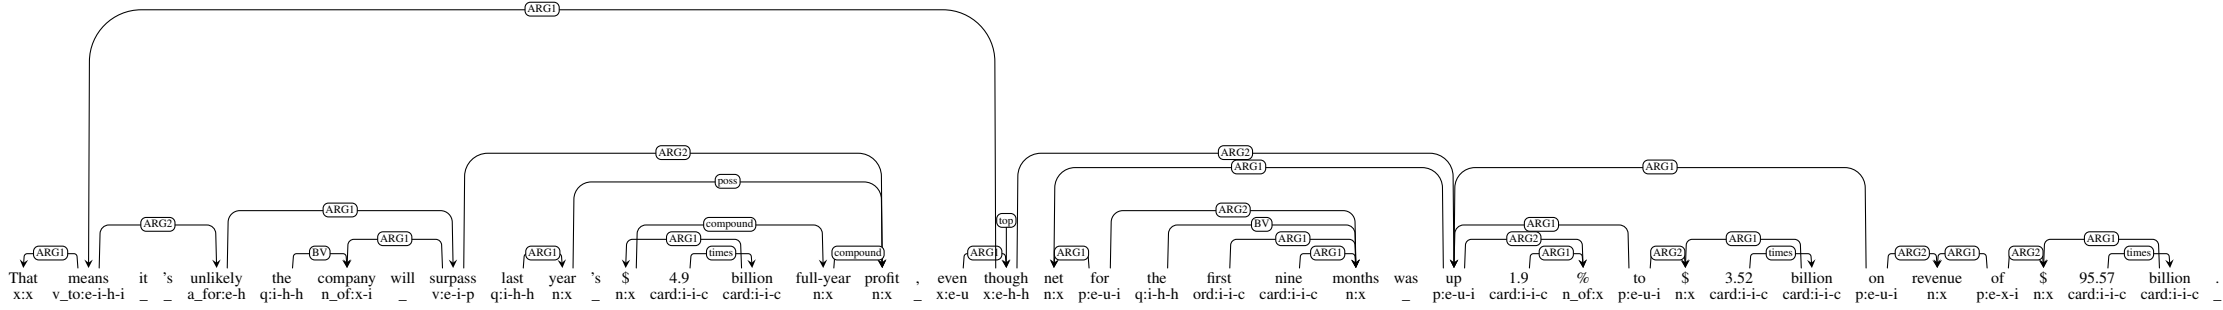

[20818050]

This cushion could come in handy if GM has to trim fourth-quarter North American production schedules more than the already scheduled 9.5 % .
