Diagram illustrating the syntactic structure of the sentence "Dried fruits are purchased from sources where they are neither sulphured nor sprayed." The diagram shows the hierarchical organization of the sentence into phrases and clauses, with labels indicating the syntactic role of each component.

The sentence is: *v-w613_u_nobodyf2_u_nobody* *Dried* *fruits* *are* *purchased* *ev-w2443f1* *from* *sources* *where* *they* *are* *neither* *sulphured* *nor* *sprayed*.

The diagram shows the following structure:

- The main clause is *v-w613_u_nobodyf2_u_nobody* *Dried* *fruits* *are* *purchased* *ev-w2443f1* *from* *sources*.
- The relative clause is *where* *they* *are* *neither* *sulphured* *nor* *sprayed*.
- The diagram uses labels to indicate the syntactic role of each component:
 - RSTR* (Restrictor) labels *Dried* and *fruits*.
 - PAI_arg* (Predicate Argument) labels *are* and *purchased*.
 - LOC* (Location) labels *from* and *sources*.
 - CONJ_member* (Conjunction member) labels *neither* and *sulphured*.
 - CONJ_member* (Conjunction member) labels *nor* and *sprayed*.

Diagram illustrating the structure of the sentence "Apples come from a farm in Vermont where they are not sprayed" with syntactic annotations. The sentence is segmented into tokens: Apples, come, from, a, farm, in, Vermont, where, they, are, not, sprayed. The diagram shows hierarchical groupings and dependencies:

- ACT-arg** (Argument) groups "Apples" and "come".
- top** (Top) groups "come" and "from".
- DIRT-arg** (Argument) groups "from", "a", "farm", "in", and "Vermont".
- LOC** (Location) groups "in" and "Vermont".
- RESTR** (Restriction) groups "where", "they", "are", "not", and "sprayed".
- LOC** (Location) groups "where" and "they".
- PAT-arg** (Argument) groups "are", "not", and "sprayed".

Figure 10: A parse tree for the sentence "Miss Colman hopes to find suitable shakers so that help can be available at the tables". The tree shows the hierarchical structure of the sentence, with the root node being the sentence itself. The sentence is divided into a main clause and a subordinate clause. The main clause is "Miss Colman hopes to find suitable shakers so that help can be available at the tables". The subordinate clause is "so that help can be available at the tables". The main clause is further divided into a subject "Miss Colman" and a predicate "hopes to find suitable shakers so that help can be available at the tables". The subordinate clause is further divided into a subject "help" and a predicate "can be available at the tables". The tree also shows the internal structure of the phrases, such as "suitable shakers" and "available at the tables".
