“ Everything has to be the same between countries , ” says Campo ‘s Stefan Campo , who is asking clients to sign protest petitions .

“ Then there 'll be fair competition . ”
 - - - - ev-w218f3 - - -

Instead of banning such shopping, the confederation proposed ev-w241711 amending ev-w96f1 controls to be sure the privilege is n't abused ev-w16f1 ...

Figure 1 illustrates a dependency tree for the sentence: "Britain's U.N. representative and delegation head Crispin Tickell called the first meeting "good, interesting and businesslike."". The tree structure shows how words are grouped into phrases and how these phrases relate to each other. Key nodes include APP (Appositive), ESTD (Establisher), CONJ (Conjunction), and NMOD (Noun Modifier). The tree shows hierarchical groupings of words into phrases like "U.N. representative and delegation head", "Crispin Tickell", and "the first meeting 'good, interesting and businesslike.'".
