Kerr-McGee Corp. said it will spend $ 42 million to purchase land and relocate its ev-w2843f1 _ _ ev-w2636f1 _
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 (PAT-arg)
                                                                                                                                                                                                                                                                                                                                                                                                                                 RSTR OIFF
In May 1988 , an ammonium perchlorate plant in Henderson owned ev-w2176f1
                                                                                                                                                                                                                                                                                                                              by an American Pacific Corp. unit was leveled by a series of explosions .
                                                  explosion , Kerr-McGee temporarily shut down its facility just south of Las Vegas for a safety inspection .
                                                                                                                                                                                                           RHEM) (LOC)
      American Pacific and Kerr-McGee are ev-w218f2 ev-w218f2 (RHEM) (RSTR) (R
      When the plant was destroyed , " I think everyone got concerned that the same thing would happen at our plant , " a KerrMcGee spokeswoman said . ev-w1455f1 _ _ _ _ _ _ ev-w2833f1 _
   That prompted Kerr-McGee to consider moving ev-w2410f1 — ev-w262f1 ev-w2031f2 — ev-
  Kerr-McGee said it has purchased 3,350 acres from the federal government in Clark County and plans to begin construction early next year .
  The new facility is expected to begin operations in early 1991 .
