I have not offered and will not offer ev-w2105f1 _ _ _ ev-w2105f1
                                                                                                                                                                                                                    ADVS.member
      This is not nearly good enough .
                                                                                                                                                                                                                    PAT-arg
                                                                                                                                                                                                                                        ACT-arg
                                                                                                                                                                               about cancer patients , both today and tomorrow , should offer the hope of something better than that .
                                                                                                                                                                                                                                                                                                                                                              ____DESCR
                                                                                                    Verbatim from a printed text available to all reporters attending ev-w161f1
                                                                                                                                                                                                                                                                                                                                             GRAD.member
                                                                                                                                                                                                                                                                                                            which we have established today but also the hope of something still better .
     These research protocols offer to ev-w2105f1
