over Qintex Australia 's man
       , in turn , could substantially reduce the value of the television assets ev-w2577f1
                                                                                                                                                                             Qintex Australia Chairman Christopher Skase
                                                     " solvent and with the continued support of its bankers
                                  CONJ.member)
Company
The Qintex group 's problems began in earnest in March , when Mr. Skase agreed to buy ev-w234f3 _ ev-w214f1
                                                                                                   MGM/UA Communications Co
                                                                                                                                             erbid from Rupert Murdoch ; the deal v.w.75 u.pobedyfi
                                             when Qintex Australia was posted to increase its offer
 But the transaction faltered
