    The fields contain recoverable reserves of 435 billion cubic feet of natural gas and four million barrels of oil .
                             this acquisition is another indication of Texaco 's commitment to increase the company 's reserve base ,
      At least two years ago , the company put 60 million barrels of oil reserves on the block .
