                                                                                                                                                  Crusaders , used since the 1950s to protect carriers from attack .

ev-w3525f6 _ _ _ ev-w2421f2 _ _ _ _ _
Officially , the statement is n't an attack on the Rafale .
                , senior navy officials sharply criticize the Rafale as an air force plane ill-suited to carrier use
 Although they never said so publicly , they have made no secret of their preference for the F-18 on operational grounds
                                                       ight are continue paying for expensive independent programs ev-w2465f1
So far , Mr. Dassault has resisted pressure to change ev-w2697f1 ev-w486f3
                        issue to a head is that the Crusaders are literally falling apart , without any immediate plan to replace them .
                                                         that the last other country to use Crusaders , the Philippines , retired its last ones two years ago
                          TWHEN ____
                          (MAT) (PAT-arg) (ACT-arg) (Crusader squadron leader , said
A French Crusader crash a few months ago heightened pressure for new planes here .
